ABOUT ME

I am a highly motivated first-year Software Engineering student with a strong foundation in programming with python and c++ and self-taught MERN stack developer currently pursuing a degree in Software Engineering at Mekelle University. With a passion for innovation and problem-solving, I have consistently excelled academically, earning top marks throughout my education. My resilience and determination have enabled me to overcome significant challenges, including limited resources and disruptions caused by civil conflict. I am now seeking opportunities to further my skills and contribute to impactful programming specially in web and app development projects while aspiring to create groundbreaking technologies in the future.
